**Location of Site or Find Spot**

3. Marks 'Grim's Ditch' between NGR's (middle NGR = corner).

**Finder & Date**

**Present Location**

**Descriptions of Site or Object**

1. Grim's Ditch near Great Hampden runs W by N across park to a point $\frac{3}{4}$ mile beyond Hampden House where it turns left with an exact right angle.
2. Ditch continues to corner of Kingsfield Wood where it turns at right angles in a SW direction through Barnes Grove to Redland End where it leaves the parish.
3. (see above & over).
4. Dyke in good condition for whole of this length. From Redlands End to NW corner of Gt. Hampden Park it proceeds in a NE direction but there it makes a sharp turn & proceeds in a SE direction along edge of hill. Ditch rather flat at the corner & practically no sign of a bank; & it may be suggested that an original entrance or way through existed at this corner. Scheduled Ancient Monument no. 42 (Bucks).

35326.
